DETAILED ACTION

Response to Amendment

1. The currently amendment filed on January 25, 2008 is in order to comply with Rule 37 CFR 1.173 (b) (2). Since none of the amendments in the current amendment involves a substantive change in nature that was not covered by any of the previous declarations, a supplemental declaration is not necessary for this amendment.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Surinder Sachar on May 14, 2008.

The application has been amended as follows:

- I. Cancel claims 13, 22-31, 34, 42-46 (claims 13, 22-31, 34, 42-46 were previously cancelled in the amendment filed on 10/20/2000).
- II. Claim 1 (Amended): A facsimile machine comprising:
a printer unit for printing out data having a predetermined format; and
interface means, coupled to said printer unit, for converting facsimile image data into recording data having a format in which said printer unit can input the recording data and for supplying the recording data to said printer unit, wherein said printer unit comprises:

a printing portion for printing recording data; and
data supply control means, coupled to said interface means and said printer portion, for supplying the recording data from said interface means to said printing portion at predetermined printing intervals, wherein said data supply control means comprises:

input means for inputting a predetermined character data at the predetermined printing intervals;

gate means for gating the recording data from said interface means so that the recording data is

supplied to said printing portion when the predetermined character data is supplied thereto from said input means; and

signal output means for outputting a control signal when said input means inputs the predetermined character data, the control signal being supplied to said interface means, and said interface means supplying the recording data to said printer unit every time said interface means receives the control signal.

Allowable Subject Matter

3. Claims 1, 2, 4-12, 14-21, 32, 33, 35-41, and 47-52 are allowed.
